

## **Amazon Mission Project - Needs and Associated Cost**

Trip Dates: July 3-16, 2019

### **Small Gifts \$100**

These are small gifts given to the community to show our appreciation.

### **Women Outreach \$200**

Creating a safe environment for woman to share and learn is essential for meeting many of these social and health needs.

### **Bibles \$300**

Many of the locals do not have Bibles in Portuguese so having Bibles to read during our evangelistic series will be very beneficial.

### **Vacation Bible School / Children's Activities \$400**

The supplies we purchase are simple, but it is amazing how creative young people can be with markers a little glue and construction-paper.

### **Paint & Painting Supplies \$700**

Always something to paint. This year we will be painting the local church and parts of the mission house.

### **Banners \$800**

Banners showing colorfully showing the 8 laws of health in Portuguese as we present them will help to show the importance of temperance in our daily lives.

These banners will continue to be used during future mission trips and events.

### **Community Work Projects \$900**

This year we will need several tools and supplies to help support our community with a project that will run electrical lines from the generator to the saw mill and wood shop, this will be done in conjunction with other smaller community projects.

### **Fuel (Gas, Natural Gas, and Diesel) \$1000**

Nothing happens without fuel. Fuel for the generator to make our own electricity, fuel to power the boats, fuel to cook our food and more. Very little happens without fuel.

### **Vincent Fund (Young pastor and wife from Venezuela) \$1100**

Vincent a young Venezuelan has worked as a Bible worker in Brazil and has a passion for Christ. He and his wife now pastor a group of Adventist believers in the politically unstable country of Venezuela north of Brazil. At times he does not even have enough money for food, but his love for people and his passion to spread the gospel keeps him in his country an almost unlivable place. We are looking to have him join us for this mission in July and possibly stay a while longer to help us and our mission manager as they work to minister to the local members and reach out to the communities on the river around our mission station.

### **Concrete Work \$1200**

This year we will be doing concrete work around our mission house to enhance storage, water runoff, and cleanliness.

### **Dental Equipment \$1300**

For the past two years we have had a team of young dentist willing to join us to help with dental needs. These dentists work for facilities that don't always allow them to borrow the equipment. We are looking to raise funding to help them buy equipment specifically for mission outreach.

### **16, 28in Tall Suitcases**

These will be used to transport supplies from the U.S. to Brazil via checked luggage. We will use these for multiple trips. Donate your own or Good deals are sometimes found at T.J.Max
